

CARE RISK ASSESSMENT AWARENESS

Overview

This course ensures that delegates are aware of the importance of risk assessments in care environments and that they are equipped with the skills and knowledge required to undertake them appropriately for this specific sector. Training teaches delegates the correct procedure to follow when assessing a premise and its facilities, making sure that they are aware of all relevant law and legislation with which they need to comply. The course is designed for staff who are responsible for providing health and social care to patients, but nevertheless, it would be beneficial for anyone who requires a general understanding of risk assessments.

Outline of Programme

- Introduction.
- Importance of risk assessment.
- Correct procedure.
- Association with moving and handling of objects.
- Assessing a premise and its facilities.
- Lone worker safety.
- Laws and legislation.

Assessment

The risk assessment in care training course lasts 3 hours and delegates will receive a certificate upon completion. Delegates will be expected to engage in several group activities and our experienced trainers will be on hand to help guide them through these sessions.

Cost

Our courses are competitively priced, and we aim to beat any equivalent training quote.

Important Information

- The training venue should be quiet and undisturbed.
- Staff should not be expected to be on duty.
- Staff attending should remain for the entire length of the session.
- Flexible dates available.
- Call to book a day that suits you.
