

# CATHETER CARE AWARENESS

## Overview

This course is ideal for those working in the care sector with service users who require catheters and ensures that delegates understand what catheterisation is and the risks involved with it. Delegates will gain an insight into types of catheters and why they are necessary as well as types of incontinence and how they are caused.

## Outline of Programme

- What is catheterisation?
- The purpose of urinary catheterisation.
- Causes and types of incontinence.
- Risks involved with catheterisation.
- Types of catheters.
- Inserting a catheter.

## Assessment

Catheter care awareness training takes around 3 hours and delegates will be expected to engage in several group activities. Our experienced trainers will be on hand to help guide delegates through these sessions and a certificate will be awarded upon completion.

## Cost

Our training courses are competitively priced, and we aim to beat any equivalent training quote.

## Important Information

- The training venue should be quiet and undisturbed.
- Staff should not be expected to be on duty.
- Staff attending should remain for the entire length of the session.
- Flexible dates available.
- Call to book a day that suits you.
