

# DEALING WITH SEXUALLY ABUSED YOUNG PEOPLE

## **Overview**

This course is aimed at staff whose role primarily involves working with children; this includes police, social workers, carers and GPs. Training will ensure that delegates are aware of the signs and effects of abuse so that they are able to identify when it has occurred and then provide children with the support they need. Delegates will also be advised on ways in which they can communicate and build trust with abused children to help them to recover both physically and mentally.
