

PERSON CENTRED PLANNING

Overview

In the government Putting People First policy, it was determined that person centred planning should become the norm. This training course is aimed at staff in the care sector and will teach them the correct procedure to follow when creating personal care plans for patients in regard to this policy. Staff will learn to adapt their care plans to suit the individual needs of each patient, ensuring that they incorporate ideas from other professionals as well as the patients and their families.

Outline of Programme

- Introduction.
- What should be included in a plan?
- Communicating with the patient.
- Supporting the patient.
- Successful planning methods.
- Incorporating ideas from family, professionals and the patient.
- Adapting planning for individuals' needs.
- Working with patients' budgets.
- Overcoming problems.

Assessment

The person-centred planning training course lasts 3 hours and delegates will receive a certificate upon completion. Delegates will be expected to engage in several group activities. Our experienced trainers will be on hand to help guide through these sessions and a certificate will be awarded upon completion.

Cost

Our courses are competitively priced, and we aim to beat any equivalent training quote.

Important Information

- The training venue should be quiet and undisturbed.
- Staff should not be expected to be on duty.
- Staff attending should remain for the entire length of the session.
- Flexible dates available.
- Please call to book a day that suits you.
