

SAFE HANDLING OF MEDICATIONS

Overview

This course is specifically designed for those working within the care sector and dealing with the management of medications. Training will provide delegates with the skills and legal knowledge required to reduce accidents and deaths caused by medication errors, thereby promoting the safeguarding and well-being of individuals under their care. The course fulfils CQC recommendations to improve the management quality of medication.

Outline of Programme

- Introduction and explanation.
- Legislation and codes of practice.
- Roles and responsibilities.
- Medication and risks.
- The medication process, prescribing and dispensing.
- Administration and record keeping.
- Managing a medication error.
- Side effects.
- Storage and disposal.

Assessment

The safe handling of medications training course takes around 6 hours to complete and delegates may be expected to engage in several group activities. Our experienced trainers will be on hand to help guide participants through these sessions. Successful candidates will be awarded with certification valid for 12 months.

Cost

Our courses are competitively priced, and we aim to beat any equivalent training quote.
